

# Do you have a NATIONAL implementation plan for Vocational Excellence

# The CoVEs are to our national VET system

# How do you create synergies between the Erasmus CoVEs and the national initiatives?

we don't, CoVEs have no special status yet...

CoVEs are not so known in our country

dissemination synergies

synergies are yet to be developed

by pushing the stakeholders

Get national policy makers involved in the projects/platform.  
It should be compulsory!

Advise national initiatives about international upscaling

Agreements on skills and innovation

Find national partners for existing coves

# How do you create synergies between the Erasmus CoVEs and the national initiatives?

with international covers national policy can be pushed better

articulation of competences

I didn't create 😊

We do not discourage national and regional institutions from participation.

National and regional authorities need to be actively involved in the E+ projects from the very beginning (incl. application) in order to be 'co-owner' of the results and to ensure implementation and sustainability

Sharing learning outcomes and relevant training approach  
Offering expertise at EU level to local vet providers  
Updating curricula

Katapult

Networking

By making CoVEs more inclusive and diverse

# How do you create synergies between the Erasmus CoVEs and the national initiatives?

Visit of vet

No idea

We don't know yet and we want to understand it as be more active

Careful matching to 3S smart specialisation areas

Designing action plans

N/A

We all learn in the process

Activating schemes of advocacy and confrontation

CoVEs can drive national initiatives and trigger systemic changes.

# How do you create synergies between the Erasmus CoVEs and the national initiatives?

Encourage bottom up approaches

Involve regional partners to the cove's.

Active information and knowledge sharing

start by reaching out to national authorities and see what's in the pipeline and what options there are for cooperation

By collaborating at the International level

Networking

Employ capable project managers to Tue the stakeholders together with their needs.

Private public partnership collaboration

They are under establishment; it's a new concept so stakeholders need some time to adapt. However, it seems that they understand their significance and potentiality.

# How do you create synergies between the Erasmus CoVEs and the national initiatives?

Use platforms of exchange

I would make the EU CoVEs to support nationals in internationalization

Direct link of themes / areas. Consultation between the 2 parties

By using similar objectives of the National PROJECT in close cooperation with the relevant authorities

Creating sustainability conditions for the national scale up of the Cove

National Implementation Plans that work with Vocational Schools

Innovative ideas, public-private partnerships, support of panEuropean NGOs

Becoming a multiplier

By sitting together

# How do you create synergies between the Erasmus CoVEs and the national initiatives?

More PR for innovations

Excellence for all vet students. All levels.

CoVEs will be used to increase quality of VET, therefore it is expected to include social inclusion as well.

with the strategies

Make sure everyone can be independent by being well educated

It is making your life excellent. In all phases of your life.
