

Parallel session: managing COVE projects (sustainability and impact)

Moderator:

Angelina Taneva-Veshoska

*Project leader of CATALYST, and Director at Institute
for Research in Environment, Civil Engineering and
Energy (IECE), North Macedonia*

Prof. Dr. Angelina Taneva-Veshoska is Director at the Institute for Research in Environment, Civil Engineering and Energy. Expertise in education: more than 17 years of experience in education, as professor, national VET expert, trainer of trainers, developing curricula (in HE, VET and adult education), managing and coordinating educational projects, conducting surveys on labour market needs, developing innovative teaching methods. Expertise in business consultancy: working with industry, creating and implementing methodologies, measures and tools for supporting sustainable business growth, better management of knowledge and intellectual capital, establishing R&D Centres and Training Centres. This effort was rewarded when she and her team received the 1st prize for their case "The Knowledge Management and Intellectual Capital Excellence Award". Angelina and her team are coordinating Erasmus+ CoVE project: CATALYST - European VET Excellence Centre for Leading Sustainable Systems and Business Transformation.
