

# HABITABLE

## Partnership for Excellence - Centres of Vocational Excellence Projects selected for funding under the ERASMUS+ 2022 call

The **Alliance of Centres of Excellence in Vocational Training for Sustainable Habitat** project aims to respond to the skills shortage and mismatches caused by the digital and green transition in the Habitat sector. To this aim the project will develop innovative, learner-centred teaching methods, curricula on technical skills and key competences, and a system of certification for micro-credentials to up-and reskill adult learners and SME employees. A Platform of Centres of Vocational Excellence for Sustainable Habitat will be set up building a skills ecosystem together with a wide range of local and regional partners, as well as centres of professional excellence in other countries.

### Main objectives

- To lead the green and digital transition of the Habitat sector by developing a transnational cooperation platform of CoVEs and implement a Skills Intelligence monitoring system for the Habitat sector.
- Boost quality, digital, green and inclusive Dual VET, work-based learning and apprenticeships, support the creation of sustainable business-education cooperation partnerships, and provide labour market relevant skills including those necessary for the green and digital transitions.
- Design and apply innovative learner-centred teaching methods supported by digital tools and Extended Reality technologies and provide access to innovative curricula that focus both on technical skills and key competences.
- Support the upskilling and reskilling of adult learners and SME employees for their adaptation to the green and digital transition and implement a new system for the certification of micro-credentials in the Habitat sector.
- Support career guidance and promote social inclusion, equality, gender equality, and non-discrimination including for people with special needs/fewer opportunities.
- Foster transnational mobility for VET educators and learners, create new spaces to facilitate international cooperation, innovation

and generation of new national and European funded projects, and provide policy recommendations for the implementation of regional and local strategies to raise upward convergence of CoVEs.

- Maximise the impact of the project, the further use of its products and the mainstreaming of its results.

### Main deliverables

- Development of a SMART Skills Intelligence Platform and Monitoring System for the Habitat sector to guide the actions of the skills ecosystem.
- Development of a Skills Hub containing the Online Training Centre with a set of training programmes addressed to trainers, SMEs and VET learners, including the elaboration and testing of different MOOCs and courses, and implementation of the Innovative Curricula Digital Database and the MIC - Micro-credentials Certification Centre.
- Development of a multifunctional online platform for skills Training, Certification and Career guidance where developed training programmes are available.
- Setting up a collaborative platform for CoVEs and SMEs to support work-based learning in the Habitat sector, dedicated to Dual VET and WBL that aims to support SMEs and VET centres to boost quality, digital, green and inclusive Dual VET, apprenticeship and WBL.
- Establishment of a Platform of CoVEs for Sustainable Habitat, boosting new projects and initiatives through the Skills Ecosystem Innovation TANK and the co-creation LAB and drafting recommendations for the implementation of a regional and local strategy for upward the convergency of CoVEs.

Project duration **4 years**

EU grant **€ 3.998.710**

Lead organisation **Cluster de Habitat Eficiente**

Location **Calle Valle de Aran 5, 47010 Valladolid, Spain**

## Partners
